

Profile : Hazelnut Vanilla

Loose - Flavored Black Tea

November 20, 2025

CUP CHARACTERISTICS: Heady vanilla highlights the rich hazelnut flavor. Excellent sweet nutty finish with light cream notes.

INGREDIENTS: Black tea, Mallow + Calendula + Sunflower petals, Natural flavors.

INGREDIENTS FROM: Sri Lanka / Kenya / India / Albania / Egypt / Poland

REGION(S): Nuwara Eliya + Dimbula + Uva / Nandi Highlands / Nilgiri / Tirana / Nile River Delta + Fayoum / Gdansk

GROWING ALTITUDES: 4000 - 8500 feet above sea level

GRADE(S): OP (Orange Pekoe)

MANUFACTURE TYPE(S): Orthodox (Traditional leafy)

ANTIOXIDANT LEVEL: High

CAFFEINE LEVEL: Medium

KOSHER: Yes

VEGETARIAN: Yes

VEGAN: Yes

ARTISANAL NOTES: Small batch blended and packed in Canada at The Metropolitan Tea Company.

INFUSION: Bright and coppery

INFORMATION:

According to historical manuscripts, sweets made with hazelnuts and vanilla have been popular since the days of the Roman Empire and King Arthur's ancient England - if you believe he existed! Prior to the meeting of both cultures however, hazelnuts and vanilla were consumed on their own. Legend has it that the first time the two were combined was after a skirmish involving some Knights of the Round Table and a contingent of Roman expeditionary soldiers seeking to extend the borders of their Empire. Owing to their superior weaponry, the Romans took a number of Knights captive. Among the items the Romans confiscated from the Knights was a sack of hazelnuts they carried as sustenance during long campaigns. As the story goes, the cook at the Roman camp took one bite and realized that the nuts would compliment his store of vanilla perfectly. (Roman cooks always traveled with a good stock of vanilla.) The Knights, seeing a potential means of escape, bribed the cook by offering to come back with 5 sacks of the nuts, one for each man captured. The cook agreed and the rest as they say is culinary history. Over the centuries, the wonderfully nutty sweet flavor of hazelnut and vanilla has been used to create cookies, pastries, and breads in nearly every country in Europe. In fact it was a European colleague of our Master Taster who initially conceived of this tea. We're certainly glad he did because the resulting blend is in a word, *esculentus*. (That's Latin for delicious.) Nutty, with fragrant flowery undertones, this tea is the perfect companion to a traditional European continental breakfast. *Occupo!* (That's Latin for enjoy!)

What type of tea do we use, how do we flavor the tea and why do we use natural flavors?

Firstly... we only use high grown teas from the top 3 tea growing regions of Sri Lanka - Nuwara Eliya, Dimbula and Uva. These three high-grown districts produce flavorful teas that have classic 'Ceylon' tea character which is noted by floral bouquet and flavor notes, touches of mild astringency, bright coppery color and, most importantly - perfect for use as the base tea of our flavored teas. (We have tested teas from various other origins around the world as base stock for our flavored teas, but none of these teas made the grade.) Dimbula and the western estates of Nuwara Eliya have a major quality peak during Jan/Feb, whereas Uva and the eastern estates of Nuwara Eliya have their peak in July/Aug. This 'dual peak period' allow us to buy the best for our flavored tea blends several times during the year, ensuring top quality and freshness.

Secondly... we use flavoring oils not crystals to give the tea drinker an olfactory holiday before indulging in a liquid tea treat.

Thirdly... we specify natural flavors. High quality tea tastes good and natural flavors do not mask the natural taste of the high grown Ceylon tea. (The norm for many making flavored tea is to use overpowering artificial flavors, which can be used to hide lower quality tea). Natural flavors do not leave an aftertaste giving the tea a clean and true character. It should be noted that natural flavors tend to be somewhat 'soft' and the flavors slightly muted, but for many this is a refreshing change and one of the desired attributes of our naturally flavored teas.

STRONG	6-7 min	6-7 min	6-7 min
MetroTea recommends 4-5 min			

SERVING RECOMMENDATIONS:

MILK	SUGAR	LEMON	MINT
OK	OK	NO	NO

IDEAL BREWING TEMPERATURE: 100°C/212°F

HOT BREWING METHOD:

Bring filtered or freshly drawn cold water to a rolling boil. Place 1 slightly heaping teaspoon of loose tea for each 7-9oz / 200-260ml of fluid volume in the teapot. Pour the boiling water into the teapot. Cover and let steep for 3-7 minutes according to taste (the longer the steeping time the stronger the tea).

ICED TEA BREWING METHOD (Pitcher): (To Make 1 Liter/Quart):

Place 6 slightly heaping teaspoons of loose tea or 6 tea bags into a teapot or heat resistant pitcher. Using filtered or freshly drawn cold water, boil and pour 11/4 cups/315ml over the tea. Steep for 5 minutes. Quarter fill a serving pitcher with cold water. Pour the tea into your serving pitcher straining the tea or removing the tea bags. Add ice and top-up the pitcher with cold water. Garnish and sweeten to taste. A rule of thumb when preparing fresh brewed iced tea is to increase the strength of hot tea since it will be poured over ice and diluted with cold water. (Note: Some luxury quality teas may turn cloudy when poured over ice. This is a sign of luxury quality and nothing to worry about.)

ICED TEA BREWING METHOD (Individual Serving):

Place 1 slightly heaping teaspoon of loose tea or 1 tea bag into a teapot for each serving required. Using filtered or freshly drawn cold water, boil and pour 6-7oz/170-200ml per serving over the tea. Cover and let steep for 5 minutes. Add hot tea to a 12oz/375ml acrylic glass filled with ice, straining the tea or removing the bags. Not all of the tea will fit, allowing for approximately an additional ½ serving. Sweeten and/or add lemon to taste. A rule of thumb when preparing fresh brewed iced tea is to increase the strength of hot tea since it will be poured over ice and diluted. (Note: Some luxury quality teas may turn cloudy when poured over ice. This is a sign of luxury quality and nothing to worry about!)

FOOD SAFETY ADVISORY: We strongly recommend using filtered or freshly drawn cold water brought to a rolling boil when brewing all types of tea. Today's water has been known to carry viruses, parasites and bacteria. Boiling the water will kill these elements and reduce the potential incidence of water-borne illnesses.

RECOMMENDATION: We recommend the use of our '1 Cup of Perfect Tea' measuring spoon (Item# 11MS-1370) for best results. Please contact Metropolitan Tea to place an order.

ANTIOXIDANT BENEFIT: For a greater antioxidant benefit brew longer and use more tea.
